

A4 Group
SUPPLEMENTING YOUR BRAND

The A4 Group provides customers with the highest level of service. We support our customers with knowledge, experience and values to help them create their successful business.

OUR MISSION

We contribute to the improvement of the quality of life, well-being, and happiness.

OUR VISION

Composed of a group of passionate nutritionists, the A4 Group strives to be the best B2B partner in the market.

OUR VALUES

All our products are eco-friendly, pesticide and heavy metals-free and produced to the highest production standards and quality.

Together with our partners, we love to create custom personalized formulations and develop new products with vitamins, minerals, herbal extracts, cannabinoids, and other natural ingredients.

A4 Group

SUPPLEMENTING YOUR BRAND

OUR PRODUCTION LINES AND EQUIPMENT FULFILL THE HIGHEST TECHNOLOGICAL STANDARDS FOR FOOD SUPPLEMENTS PRODUCTION

We extract cannabinoids using the SCF CO₂-extraction method, which lets us offer products with legal THC levels. We guarantee that all our products contain the exact level of cannabinoids stated.

Our products are produced according to GMP and HACCP standards, with the highest standards of internal quality control and third-party certified laboratories.

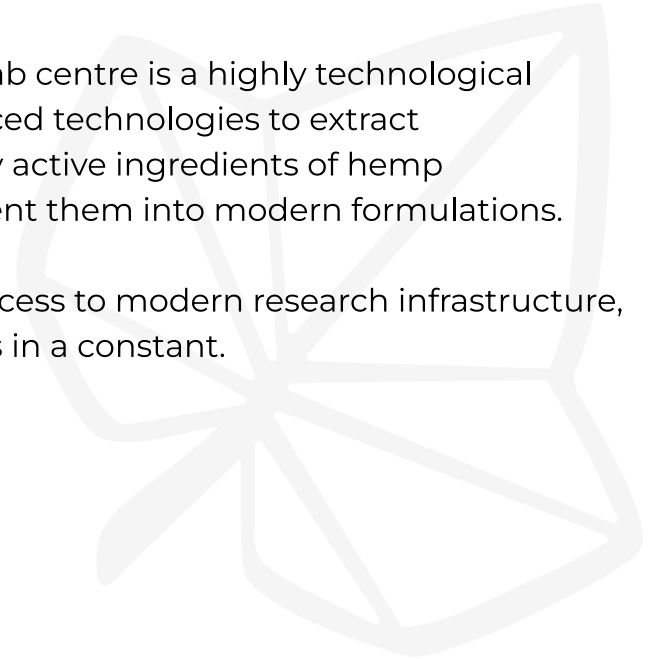

Our R&D department is composed of a team of professionals with many years of experience in the pharmaceutical and food industry, developing all our products to be the perfect blend of science and nature.

The A4 Group internal lab centre is a highly technological unit that applies advanced technologies to extract the selected biologically active ingredients of hemp and herbs and implement them into modern formulations.

Due to the unlimited access to modern research infrastructure, our production facility is in a constant.

FUNCTIONAL GUMMIES

Simple to use and apply.

Our Functional Gummies are especially suitable for people who prefer this form of nutrition.

We produce natural-flavoured gummies, and also specific flavour recipes according to customer requirements.

Available ingredients are water- and oil-soluble vitamins (B-group, C, D3, K2, biotin, folic acid), collagen, microelements (zinc, magnesium, selenium), herbal extracts (ashwagandha, passionflower etc.).

All Functional Gummies are tested and certified by independent external laboratories.
